Pixel

Pixel is a multifunctional sofa whose backrests and armrests can be moved as desired, in accordance with an increasingly fluid lifestyle. The backrest slides - back and forth - varying the depth of the seat according to your needs, and the armrests can be tilted as you wish to give extra support to your head when you want to lie down. Available in leather, fabric or an elegant mix of both, with contrasting or tone-on-tone piping depending on the covering and color chosen.

Embrace a new philosophy of Comfort.
Feelwell combines physical relaxation
